

# BAG OF BONES

Fresh

Experimental

Unique

**Bag Of Bones** is playing originals and some covers in their own special way, far from the traditional path!

Fresh, experimental and unique.

*Elco Jongkind* brings fire on guitar, sometimes smoldering, sometimes straight through the roof, but capturing at all times, a rare quality.

Bass player *Daniel Lottersberger* and drummer *Niels Voskuil* lay down strong, steady, hypnotizing grooves.

**Bag Of Bones** mainly play songs of their own. They pay homage to their heros, but never without giving the songs a creative twist. They got the skills to do it; all of the players are clear virtuosos. It's all about the music. It's all about things coming together on stage, grooving, improvising, finding the essence.

Yes sir, like a Bag Of Bones.
